Greetings!

We at *Pinas Forward* are hoping that you are in good health and well as we all go through this challenge we are facing today. Yet, being confine in our homes will not hinder us as we continue to raise awareness on how the youth and other sectors of society can become leaders and proponents of digital bayanihan.

So, as we all stay indoors, *Pinas Forward* have launched "**Bahay Ani**" that introduces ways on how our people can help address their community's issue on food security during and after the pandemic. Its aims to inspire them to start backyard farming by introducing tips in gardening at small backyard spaces, cement pavements or even in condo units. It also aims to recognize individuals who have started backyard gardening and inviting them to post their pictures of their gardens online to inspire others to do the same.

In line with this, we are inviting you to partner with us in this campaign. Through our partnership, we will teach our citizens on how they can address food insecurity through home gardening and at the same time share best practices of existing urban gardening program.

If you have any concerns, please have your representative contact **Mr. Kristoffer Rivera at 09177771125**. Pinas Forward believes the challenging task of nation-building shall be accomplished when our people commit to include the nation in their dreams. With your partnership, we hope that our leaders shall become the trailblazers of a generation that can truly propel Pinas Forward.

Sincerely,
